

## Palette Software Appoints Stratas Business Solutions as Premier Partner

*Leading purchase-to-pay vendor strengthens UK presence with appointment of business process automation specialist*

**24 October 2017** – Palette, the leading enterprise purchase-to-pay vendor, has appointed Stratas Business Solutions as its Premier Partner, to further grow its UK presence.

Stratas specializes in Digital Transformation, and works with private, public and third-sector clients to enhance their productivity with comprehensive workflow automation and information management solutions.

Stratas will integrate modules from PaletteArena, the complete enterprise purchase-to-payment suite into its Stratas Data Forge™ platform, enabling a new level of efficiency in their finance solutions.

The integrated solution will enable users to realise significant, measurable savings by simplifying daily processing of supplier invoices, purchase order matching and related documents, and delivering strong Purchase-to-Payment and Order-to-Cash automation.

“Palette is at the forefront of the P2P automation market and we are proud to be appointed as its Premier partner in the UK. We have seen an immediate increase in our AP automation sector and the feedback from customers is very positive. We look forward to developing business with both direct and alliance partners in the UK,” said David Wilson, Managing Director, Stratas.

“We are very pleased to be working in partnership with Stratas. The company focuses on delivering innovation in workflow automation and information management, through its experienced team of consultants. The combination of Stratas’ expertise and the capabilities of the PaletteArena platform will help our joint customers to realise the full range of benefits that purchase-to-pay automation offers,” said Petter Lorange Hansen, VP Partners, Palette Software.

Stratas has full Palette Academy accreditation, enabling it to provide complete consultancy, design, deployment and training services on Palette’s solutions. Stratas’ professional services and application consultants are available on all core solutions and have developed an integration framework to deliver rapid deployment on existing, legacy invoice capture and finance systems.
